As a landowner on the Snowy River and down river from the Jinadbyne Dam Wall, plus a tourism business which relies on the environmental releases of the Snowy River, firstly I would like to thank the hard work that has resulted in the river flowing again. I remember the river when there was no releases, and in front of our land the river has improved in health and flow dramatically. I support any further work in its improvements and am happy to help in anyway I can.

Warm Regards

Claire Rogerson from Beloka

Owner of Snowy Access
