

Version D: Logbook template for recording information

Who should use this logbook template version?

This is a **logbook template** to assist access licence holders and water supply work approval holders in the following water sharing plan areas to comply with requirements to record specified information in a logbook:

- *Water Sharing Plan for the North Coast Fractured and Porous Rock Groundwater Sources 2016*
- *Water Sharing Plan for the South Coast Groundwater Sources 2016*

Check which information you need to record

Some types of access licences or water supply work approvals in these water sharing plan areas do not need to record all of the information specified in this logbook template. You may wish to check the information you are required to record in a logbook under the conditions which apply to your access licence or approval.
