Water Sharing Plan for the Intersecting Streams Unregulated River Water Sources 2011

Plan details

Water sharing plan	Intersecting Streams Unregulated River Water Sources 2011
Plan commencement	14 November 2011
Term of the plan	10 years

Important: This factsheet summarises the rules contained in the *Water Sharing Plan for the Intersecting Streams Unregulated River Water Sources 2011*. It is intended as a guide only. Approvals and licences also contain conditions that holders must comply with. You can access this information from your 'Statement of Approval' or 'Statement of Conditions' or alternatively via <https://waterregister.watarnsw.com.au/water-register-frame>.

Access Rules

Access rules for rivers and creeks	
Cease to pump	Users must cease to pump when there is no visible flow at the reference point.
Reference point	Individual pump site
Access rules for natural off-river pools	
Cease to pump	<p>Pumping is not permitted when the water level in the pool where the water is being taken from is lower than full containment volume.</p> <p>Note: 'Full containment volume' can be approximated by the pool water level at the point where the level of the water is at the high water mark.</p> <p>Note: Off-river pools include those natural pools located on flood runners or floodplains, or an effluent that only commences to flow during high flows</p>
Reference point	Individual off-river pool

Intersecting Streams Unregulated River Water Sources

Rules summary sheet 1 of 6

Notes:

1. These access rules do not apply if the existing *Water Act 1912* entitlement had more stringent access licence conditions. These existing conditions will be carried forward under the plan and are included in clause 46(5).
2. These access rules do not apply to:
 - Local Water Utilities or unregulated (town water supply) access licences
 - Stock and Domestic (Domestic) licences
 - Water taken from run-off harvesting dams or in-river dams

Trading rules

Trade type	Rules
Into water source	Not permitted
Within water source	Trades are permitted, subject to assessment
Interstate trade	The interstate transfer of an access licence/water allocation to or from access licences in these water sources are prohibited unless administrative arrangements have been agreed to, and implemented by, NSW and the other State or Territory, and the interstate access licence transfer is made in accordance with these arrangements.

More information about the planning process for the *Water Sharing Plan for the Intersecting Streams Unregulated River Water Sources 2011* is available at the Department of Planning, Industry and Environment's website: www.industry.nsw.gov.au/water
