

Baaka life like *GILLIE*

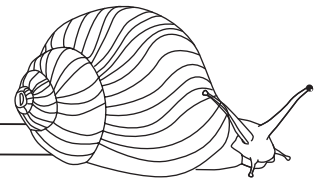

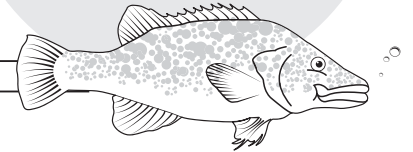

Help these river babies follow the adults.

Murray Cod are the largest freshwater fish in Australia. They can grow up to 1.8 m long.

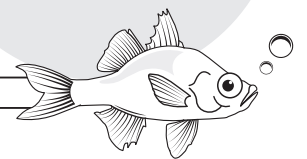

Olive Perchlets only grow as long as your finger and are transparent.

Olive Perchlets have big eyes so they can feed at night.

Darling River Snails are hard to find. Their cone-shaped shells are only 1-2 cms long. They don't have legs but slide on a foot.

Silver Perch can grow up to 40 cm long.
