

## Rules summary sheet: Chaffey Water Source

*Water Sharing Plan for the Namoi and Peel Unregulated Rivers Water Sources 2012*

### Plan details

<b>Water sharing plan</b>	Namoi and Peel Unregulated Rivers Water Sources 2012
<b>Plan commencement</b>	4 October 2012
<b>Term of the plan</b>	10 years

**Important:** This factsheet summarises the rules contained in the *Water Sharing Plan for the Namoi and Peel Unregulated Rivers Water Sources 2012*. It is intended as a guide only. Approvals and licences also contain conditions that holders must comply with. You can access this information from your 'Statement of Approval' or 'Statement of Conditions' or alternatively via <https://waterregister.watarnsw.com.au/water-register-frame>.

### Access Rules

Access rules		
<b>Management Zone</b>	<b>Peel River</b> (Peel River from its intersection with Back Creek downstream to where it enters the Peel Regulated River water source)	<b>Chaffey Tributaries</b> (All other surface waters of the Chaffey water source area excluding the Peel River management zone and the Peel Regulated River water source)
<b>Cease to pump (CtP)</b>	Users must cease to pump when flows are equal to or less than 2ML/day at Tarooma. <b>Note:</b> In addition to this CtP condition users must also cease to pump when there is no visible flow in	Users must cease to pump when there is no visible flow in the vicinity of the pump site.
Reference Point	Peel River at Tarooma Gauge (419081)	Pump site

## Trading rules

Trade type	Rules
Into water source	<p>Not permitted</p> <p><b>Note:</b> Trade can occur between all unregulated water sources in the Namoi Unregulated Rivers Extraction Management Unit where trade is permitted into the water source.</p> <p><b>Note:</b> State policy on trading into high flows for inland unregulated water sources is currently being developed. The plan will be able to be amended to allow for this to occur pending the outcomes of this policy development process.</p>
Within water source	<p>Not permitted into the Chaffey Tributaries management zone</p> <p>Permitted from the Chaffey Tributaries management zone into the Peel River management zone, subject to assessment.</p>

## Management rules

<b>Account Management Rules</b>	<p>Three year accounting rules, with carryover of 100 per cent of share component or 1 ML per unit share is permitted.</p> <p>Individual account usage is limited to 2 ML/unit share/year or 200 percent/year (where the share is expressed in megalitres), adjusted for allocation assignments out of or into individual accounts, as long as over a three year period the usage is no greater than the water allocations for those three years.</p>

## Rules summary sheet: Cockburn River Water Source

*Water Sharing Plan for the Namoi and Peel Unregulated Rivers Water Sources 2012*

### Plan details

<b>Water sharing plan</b>	Namoi and Peel Unregulated Rivers Water Sources 2012
<b>Plan commencement</b>	4 October 2012
<b>Term of the plan</b>	10 years

**Important:** This factsheet summarises the rules contained in the *Water Sharing Plan for the Namoi and Peel Unregulated Rivers Water Sources 2012*. It is intended as a guide only. Approvals and licences also contain conditions that holders must comply with. You can access this information from your 'Statement of Approval' or 'Statement of Conditions' or alternatively via <https://waterregister.watarnsw.com.au/water-register-frame>.

### Access Rules

Cockburn River Management Zone		
<b>Management zone</b>	Cockburn River (Cockburn River from its intersection with Mulla Mulla Creek downstream to where it enters the Peel Regulated River water source)	Cockburn River Tributaries (All other surface waters of the Cockburn River water source area excluding the Cockburn River management zone)
<b>Cease to pump (CtP)</b>	Very Low Flow Class	Less than or equal to 2.5 ML/day on a rising river and less than or equal to 0.3 ML/day on a falling river
	A Class	Greater than 2.5 ML/day on a rising river and greater than 0.3 ML/day on a falling river
<b>Reference point</b>	Cockburn River at Kootingal Gauge (419099)	

**Note:** water must not be taken under an access licence with an extraction component that specifies the Cockburn River Management Zone in the Cockburn River Water Source in the following circumstances when flows are between 2.5 ML/day and 0.3 ML/day at the Cockburn River at Kootingal gauge (419099) on a falling river:

- (a) between 7 am and 7 pm from 1 September to 31 May,
- (b) between 7 pm and 7 am from 1 June to 31 August

### Cockburn River Tributaries Management Zone

Cease to pump	No visible flow
Reference point	Individual pump site
<b>Access rules for natural off-river pools</b>	
Cease to pump	<p>Pumping is not permitted when the water level in the pool where the water is being taken from is lower than its full capacity.</p> <p><b>Note:</b> 'Full capacity' can be approximated by the pool water level at the point where there is no visible flow into and out of that pool.</p> <p><b>Note:</b> Off-river pools include those natural pools located on flood runners or floodplains, or an effluent that only commences to flow during high</p>
Reference point	Individual off-river pool

## Trading rules

<b>Cockburn River Management Zone</b>	
Into management zone	Not permitted
Within management zone	Trades are permitted, subject to assessment
<b>Cockburn River Tributary Management Zone</b>	
Into management zone	Not permitted
Within management zone	Trades are permitted, subject to assessment

## Management Rules

<b>Account Management Rules</b>	<p>Three year accounting rules, with carryover of 100 per cent of share component or 1 ML per unit share is permitted.</p> <p>Individual account usage is limited to 2 ML/unit share/year or 200 percent/year (where the share is expressed in megalitres), adjusted for allocation assignments out of or into individual accounts, as long as over a three year period the usage is no greater than the water allocations for those three years.</p>
